DETAILED ACTION

Response to Arguments

Applicant's arguments, see Remarks, filed 18 May 2006, with respect to the applicant's priority date have been fully considered and are persuasive. The rejection of claims 1-9 has been withdrawn.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art, or obvious combinations of the prior art, did not disclose a scintillator panel with a supporting substrate, wherein the substrate is formed by laminating non-conductive layers on both the supporting and opposite sides of the substrate and a rigidity holding layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
